

## T-Mobile Rocket 3.0

The T-Mobile Rocket 3.0 is T-Mobile's first 4G product capable of delivering peak download speeds of 42Mbps. With access to faster speeds on the Rocket 3.0, T-Mobile customers will be able to create and share mobile content, stream and connect through mobile video and participate in multi-player gaming twice as fast as 21 Mbps devices.

Providing customers with a blazing fast Internet connection on their laptop, the T-Mobile Rocket 3.0 is equipped with a convenient rotating swivel USB form factor and three changeable faceplates in cobalt blue, dark violet and matte black.

The T-Mobile Rocket 3.0 is equipped with built-in T-Mobile Connection Manager software which helps monitor and manage monthly data usage and automatically finds the best available Internet connection on America's Largest 4G Network<sup>1</sup>, 3G or Wi-Fi. Whether downloading a movie or streaming music, the T-Mobile Rocket 3.0 enables customers to stay connected and enjoy the richness of the Web just about anywhere.

### Key features of T-Mobile Rocket 3.0:
